The Bingham shield

Awarded to Tom Fanning M0LTE. Tom is well known in the club and is well respected as a knowledgeable member. He has provided some effective and practical demonstrations. His passion for the hobby is infectious and he has also provided great support to the club with work on the web site.

The Pete Milton cup

Awarded to Min Standen G0JMS. Min is very active in encouraging fresh blood into the hobby, including arranging and executing some very successful mentoring evenings, as well as being active on the repeaters and club email forum. He also organised and took part in the very enjoyable 'Station Victor' event in June at Hurley which was enjoyed by all, in fact I ended up restoring an HRO because I got the bug after seeing Jeremy Owen G8MLK's fine example there!

Honorary life membership is awarded to Vin Robinson. This does not really require an explanation – he has been a very active member for many years, much of those as chairman. He has also ran many very successful shack clearances and also helping new members into the hobby with advice. We would also like to present a voucher as a token of our appreciation.

Vouchers presented as a thank you to the sound engineers.

Thanks to Mike Spooner and his son-in-law Neill for the kind donation of USB sticks for the winners and, unusually 3 cravats!
